Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Saturday 10 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy and wet early on but brightening up later.

Today:
Gloomy initially, with outbreaks of rain affecting most areas, but the thick cloud and rain will gradually clear eastwards through the morning. Mostly dry with sunny spells during the afternoon, but a few isolated showers are still possible. Maximum temperature 19 deg C (66 deg F).

Tonight:
Showers continue for a time over western areas, but most places dry overnight. Passing bands of low cloud may produce drizzle over upland areas, with clear spells occurring between them. Minimum temperature 12 deg C (54 deg F).

Sunday:
A dry start for most and bright in the east. However, showery rain spreads in from the southwest, affecting most parts by the afternoon. Rain becoming heavier towards the evening. Maximum temperature 20 deg C (68 deg F).

Outlook for Monday to Wednesday:
Heavy rain possible across southern areas on Monday, with showers elsewhere bringing a risk of thunder. Brighter on Tuesday, with showers affecting eastern areas. Drier on Wednesday, with sunny spells.
